

# Wiley KnowItAll Annual Subscriptions

Available from  
Photothermal Spectroscopy Corp.

## Solutions to Accelerate IR & Raman Analysis

**Powerful Software. Quality Data. Results You Can Rely On**

KnowItAll offers solutions to **identify, analyze, and manage** your spectral data.

Combined with the **world's largest spectral reference databases**, it provides one of the most advanced technologies available for fast, reliable spectral analysis.

The added database collections are essential tools for the identification, classification, and verification of unknown compounds by IR spectroscopy in a wide range of applications such as polymer/materials, environmental, forensics/toxicology, pharmaceutical, biotech, automotive/aerospace, food/cosmetics, and many more.

- **The IR Spectral Library contains over 339,000 spectral records**
- **The Raman Spectral Library contains over 25,000 spectral records**

*Supports multiple techniques and instrument vendor formats to streamline your workflow. Includes simultaneous multi-technique search.*

**Choose the right solution bundle for your specific laboratory application**

Part #	Product	Product Description
978EALDB03457	KnowItAll® Analytical Edition Software (Annual Subscription)	Wiley's <a href="#">KnowItAll Analytical Edition</a> offers solutions to identify, analyze, and manage analytical data. Software only includes access to a basic IR database with more than 12,000 entries (organic and polymeric compounds subset).
978EALDB03716	KnowItAll® IR Identification Pro (Annual Subscription)	Bundle includes: <a href="#">KnowItAll IR Spectral Library</a> + Analytical Edition Software
978EALDB03754	KnowItAll® IR/Raman Identification Pro (Annual Subscription)	Bundle includes: <a href="#">KnowItAll IR</a> and <a href="#">Raman</a> Spectral Libraries + <a href="#">Analytical Edition</a> Software
